BUSTER Memory Foam Dog Beds

BUSTER Memory Foam beds distinguish themselves from standard foam beds in the sense that the Memory Foam yields to the weight of the dog and at the same time it will assume the shape of the dog by means of body heat.

BUSTER Memory Foam dog bed provides the ultimate in comfort due to two factors, ie by reducing the number of pressure points and by providing excellent support. Memory Foam reacts to body heat which allows it to mould itself to the shape of a warm body thus distributing the body weight over a larger area and relieving pressure on joints.

The BUSTER Memory Foam dog bed improves quality of life especially for dogs with hip or elbow dysplasia, arthritis and joint problems associated with large breeds and senior dogs.

The cover is made from alcantara: 90% polyester and 10% cotton. Washable at 30 degr. C.

The beds are available in four colours and two sizes.

BUSTER IncrediBowl

BUSTER IncrediBowl is an ideal solution for the long-eared dog fed with tinned food, the shape of the bowl keeps a dog's long ears outside the bowl during eating.

Your dog's ears will not be stained by liquid food that may leave a lingering bad smell behind. BUSTER IncrediBowl has a conical-shaped design that ensures a dog will not bolt its food, this is because they have to pick food from the inner corners. This improves your dog's health by reducing common maladies related to improper eating patterns. The soft material incorporates durable floor stabilisers that greatly inhibit movement while your dog eats.
