BUSTER IncrediBowl

BUSTER IncrediBowl is an ideal solution for the long-eared dog fed with tinned food, the shape of the bowl keeps a dog's long ears outside the bowl during eating.

Your dog's ears will not be stained by liquid food that may leave a lingering bad smell behind. BUSTER IncrediBowl has a conical-shaped design that ensures a dog will not bolt its food, this is because they have to pick food from the inner corners. This improves your dog's health by reducing common maladies related to improper eating patterns. The soft material incorporates durable floor stabilisers that greatly inhibit movement while your dog eats.

Cat. No	Description	Colour	Size
281501	BUSTER IncrediBowl	Magenta Red	Large (2L)

281464	Maya 2 Water Dispenser	Assorted colours 3,5 l

BUSTER Flex Range

The BUSTER Flex range of toys contains four unique styles of toy made from the highest non-toxic grade of silicone.

As well as acting as traditional play toys, all of the toys from the Flex Range can be filled with either dry treats or wet food. They can also be frozen with food inside.

These make them not only suitable for mental stimulation for your dog, but also to help aid with behavioural issues such as separation anxiety as they can be filled with treats and food and then left with your dog.

BUSTER Sensory Ball

The BUSTER Sensory Ball is designed to stimulate all of your dogs senses.

Smell & Taste - The ball has a distinctive beef smell that is deigned to help stimulate your dog's sense of smell.

Sound - The sensory ball has both a squeak and a rattle for stimulation of the dog's hearing senses.

Feel - There are several different textures around the ball so that it has a unique feel for the dog depending on how they grip the ball.

Sight - The ball has 3 different colours in different patterns to stimulate the dog's sight senses.

Cat. No	Description	Size
276512	BUSTER Sensory Ball	Small (6.35cm)
276513	BUSTER Sensory Ball	Medium (8.25cm)

Strong Ball with rope

BUSTER Strong Range

The BUSTER Strong Range contains several different types of toys made from an incredibly tough and durable non-toxic rubber. The rubber's strength is second to none and will hold up against the toughest of jaws. It has even been known to withstand an industrial blender.

There are ball's and bone's available with an extra tough rope through the middle for dogs that want to pay "tug-o-war". There are also different shapes and types of bones without rope that are suitable for either using as a play/fetch toy, or an extra tough chew toy.

All the toys from the BUSTER Strong Range are available in Ice Blue colour.

Cat. No	Description	Size
276520	BUSTER Strong Ball w/rope, Ice blue	X-Small
276521	BUSTER Strong Ball w/rope, Ice blue	Small

Strong Y-Bone

BUSTER Crunch Toys

The BUSTER Crunch Toys are made from two different types of material. The outside consists of a tough soft non-toxic silicone, whilst the inside is made from a special crunchy plastic designed to withstand the pressure of the dog chewing the toy.

Available in 2 sizes of ball or 1 size of bone and in Ice Blue Colour.

Cat. No	Description	Size
276530	BUSTER Crunch Ball, Ice blue	Small
276531	BUSTER Crunch Ball, Ice blue	Medium
276532	BUSTER Crunch Bone, Ice blue	Large

Keep your pet active with KRUUSE

BUSTER INTERACTIVE TOYS

The Background - Why a Buster Interactive Toy is useful
Buster Cubes and balls aim to combine feeding and play in an interactive way, while mentally stimulating and increasing the dexterity of dogs and cats. Both canine and feline obesity are rising at an alarming rate, and these toys provide an aid to the owner to manage at least part of the dry feed diet not in a bowl.

Each product has different levels of difficulty, and the mental

stimulation they create provides an increased level of exercise in combination with a normal walk. They can assist in the reduction of separation anxiety and enrich a pet's lifestyle by means of positive stimulation.

The range includes the Catmosphere, which is a weighted clear ball so cats can see the food, and by making the ball roll, they are rewarded with a piece of dry food being dispensed.

For dogs, the catmosphere is great for puppies to start with, they will then progress to the Buster Soft Cube, which delivers food every one in six rolls.

Finally, the Buster Food Cube and Buster Treat Ball are fitted with a Matrix, which has internal paddles so there's only a one in 36 chance of being rewarded.

By making pets work harder for their food, you are stimulating them in a positive way increasing their enjoyment, reducing obesity and it's also great fun to watch.

BUSTER Food Cube

KRUUSE's iconic BUSTER Cube is an ingenious toy recommended by many animal behaviourists.

Fill up the BUSTER Cube with food or treats to stimulate your dog both mentally and physically by encouraging natural hunting instincts. The tasty rewards keep your dog entertained for hours.

Cat. No	Description	Colour	Size
274080	BUSTER Food Cube	Black	Large
274081	BUSTER Food Cube	Cherry	Large
274082	BUSTER Food Cube	Lime	Large

274086	BUSTER Mini Cube	Cherry	Small
274087	BUSTER Mini Cube	Lime	Small
274088	BUSTER Mini Cube	Purple	Small

BUSTER Treat Ball

The perfect toy for activating your dog. Fill it up with treats. Made from durable ABS plastic.

Patented maze function for slow release of treats.

Cat. No	Description	Colour	Size
274401	BUSTER Treat Ball	Red	Small
274400	BUSTER Treat Ball	Red	Large
274402	BUSTER Treat Ball	Blue	Small

BUSTER Soft Cube

Focusing on playing without making noise, KRUUSE developed the popular BUSTER Cube in a softer version. Available in two sizes.

No clattering on the floor - but lots of mental challenges to keep your dog occupied for a long time. Contains no softeners. Get out the treats and let the games begin! Particularly suitable for use on wooden or laminate flooring.

Cat. No	Description	Colour
274051	BUSTER Soft Cube	Magenta Red
274052	BUSTER Soft Cube	Blue
274061	BUSTER Soft Cube Mini	Magenta Red
274062	BUSTER Soft Cube Mini	Blue

Catrine Catmosphere

Cats are hunters by nature. Stimulate your cat's curiosity with this unique treat dispenser. Filled with your cat's favorite treats the dispenser creates an unpredictable roll that engages the cat to chase it.

Once the toy is caught, the cat is rewarded with a treat. The physical stimulation involved in the chase makes the dispenser suitable in supporting controlled diets and treatment of feline obesity. The toy is also suitable for puppies.

Cat. No	Description	Colour	Size
274510	Catrine Catmosphere treat ball	Black	95 mm
274511	Catrine Catmosphere treat ball	Red	95 mm

BUSTER ActivityMat

- Have fun together with your dog and stimulate your dog mentally
- Give your dog more content in everyday life with the BUSTER ActivityMat
- The basic BUSTER ActivityMat has 35 press studs placed 10 cm apart
- Patent pending

You can attach different tasks to the mat, most of them with varying levels of difficulty depending on whether you fold the tasks or leave them open. Complementary activities can be bought separately.

Patent nr. PA 2014 70018

■ A unique and innovative activity mat for your dog where the difficulty can be adjusted to meet your dog's needs

■ ActivityMat is an interactive puzzle for you and your dog. The dog must be supervised when working with ActivityMat

■ Helps supports the relationship between you and your dog and will give you many hours of interactive play and training

■ The ActivityMat can be expanded with new tasks, so you will always have new challenges for your dog

■ Some dogs choose to use their paws, others their nose. Learn to accept the way the dog chooses to solve the task

■ It is important that the dog gets a positive experience when working with ActivityMat. Give the dog the help it needs, without taking the initiative away from the dog and solving the task for them

■ When the dog is not sure what it should do, then it is a good idea to give them a treat just for touching the mat or a task

■ If the dog is over excited then it may be a good idea to let him eat first. However if the dog is not too interested when first presented with ActivityMat then it could be an advantage that it is hungry. Choose what feels right for you and your dog

BUSTER Reflective Gear Black

The entry level BUSTER Gear range guarantees a high quality durable product at extremely affordable prices. Made from solid nylon that encases a soft foam filling, reflective threads have been applied to ensure greater safety during walks at nightfall.

This range is perfect for the cost conscious dog owner who want to ensure that they have a high quality, well made collar, lead or harness that is comfortable for the dog and has a reflective element for added safety.

The 7-way leads is the ideal choice as the leads can be used in 7 different ways and adjusted to different purposes.

Available in three colours and four sizes.

BUSTER Gear, Reflective Mesh, Black

BUSTER Reflective Mesh Gear is a premium range of collars, leads and harnesses suitable for all different sizes, breeds and types of dog.

The soft webbing is padded and also meshed, which ensures that it remains not only durable but extremely light and also breathable.

All the metal components are made from a high quality durable stainless steel to ensure maximum safety at all times.

Two different lengths of leads mean that there will always be a size to suit your needs. The handle of the lead contains a small plastic buckle which means that if you need to tether your dog up anywhere there is never any need to disconnect the lead from the dog's collar or harness. That feature is perfect for young or excitable dogs, or for children handling your dog.

BUSTER Reflective Mesh is available in 4 different sizes and 3 different colours.

Cat. No	Description	Colour	Size

BUSTER Gear, Neoprene, Black

BUSTER Neoprene Gear is a premium range of collars, leads and harnesses suitable for all different sizes, breeds and types of dog.

The collars, leads and harnesses are lined with an extra soft neoprene to ensure maximum comfort at all times. Reflective stitching also runs through all the products for added safety at night whilst walking your dog.

BUSTER Neoprene collars also contain a "low loading" feature where the collar passes through the stainless steel ring which means that anything connected to the collar will put less pressure on the buckle of the collar than a traditional collar. This vastly increases the safety and longevity of the collar.

As well as a traditional lead, a 7 way multipurpose training lead and bungee lead are available meaning that no matter your needs there will be a product available for you and your dog.

BUSTER Neoprene is available in 4 different sizes and 3 different colours.

Cat. No	Description	Colour	Size

BUSTER Outdoor Winter Jacket

The BUSTER winter jacket offers perfect protection of your dog in extreme winter conditions.

The outer shell material makes the jacket fully waterproof and windproof.

The inner fleece keeps your dog warm and makes the jacket comfortable to wear.

It is fully adjustable with a simple nylon buckled strap that passes around the dog. Extra safety and a more comfortable fit is ensured by rear leg strap. There is also a small hole at the top of the coat for the dog's harnesses to pass through which can be sealed by a simple double zip.

BUSTER Walka Dog Boot

BUSTER Walka boots are the latest addition to our wide range of socks and boots for dogs and cats. The boots protect bandages on paws during wound management.

The shoe is snug fitting with sewn-on Velcro fastening strap. It has a very solid rubber sole that provides excellent support and insulation.

Cat. No	Description	Size
161665	BUSTER dog shoe (Walkaboot), 1/pk	Small
161666	BUSTER dog shoe (Walkaboot), 1/pk	Medium
161667	BUSTER dog shoe (Walkaboot), 1/pk	Medium / Large
161668	BUSTER dog shoe (Walkaboot), 1/pk	Large

BUSTER Strong Soled Dog Boot

Made from rib-knitted cotton with a hardwearing, waterproof sole. This boot is ideal for covering paw bandages. In addition the BUSTER dog boot gives perfect protection for working dogs when they explore ground and surfaces of extremely hard character, e.g. rocky ground, rubbish dumps and areas with steel shavings, broken glass, snow and ice. The dog boots can reduce a number of injuries to the paws which means that the dog's effective hours of work are increased.

Cat. No	Description	Size
161607	BUSTER dog boot w/sole, 1/pk	Small
161608	BUSTER dog boot w/sole, 1/pk	Medium
161609	BUSTER dog boot w/sole, 1/pk	Large

BUSTER Dog Socks

This sock, with a waterproof sole, is used as a cover for paw-bandages. Made of rib-knitted cotton enabling the bandage to breathe and reinforced with a hardwearing and waterproof sole, the sock is pulled firmly upwards and fastened with pieces of sticking plaster.

BUSTER Memory Foam Dog Beds

BUSTER Memory Foam beds distinguish themselves from standard foam because the shredded memory foam yields to the weight of the dog and assumes the shape of the dog by means of body heat relieving pressure on joints. This will improve quality of life for dogs with hip or elbow dysplasia, arthritis and joint problems associated with large breeds and senior dogs.

The cover is made from alcantara: 90% polyester and 10% cotton. Washable at 30 degrees. C.

The beds are available in four colours and two sizes.

BUSTER Memory Foam Bed Covers

You can get an extra cover for the BUSTER Memory Foam Beds which makes it easy to change when the first cover needs a wash. Available in two sizes and the four nice standard colours.

PeeWee™

PeeWee

The double tray cat litter system

PeeWee wood pellets are 100% natural and biodegradable. The pellets are made from the sawdust of carefully sourced Swedish trees. The sawdust of these trees is highly absorbent and has a natural ability to neutralise the smell of ammonia. Unlike other wood pellets, our pellets contain no leaves or bark. Indeed, nothing at all is added during the production process; no scents, glues, binding agents or other chemical nasties. The sawdust is simply compressed under very high pressure. This also prevents the pellets rotting or freezing.

For the best effect, and to benefit both your cat's well-being and your wallet, always use PeeWee wood pellets in combination with the PeeWee litter tray. Used together, the PeeWee wood pellets and litter tray are the perfect duo and represent a green revolution for cat lovers.

160856	PetFlex No Chew Bandage	7.5 cm x 4.5 m	24/pk

Nursing Kits & Bottles

PetAg Nursing Kits & Bottles contain all the supplies you need for feeding your new born puppies, kittens and other small animals. The durable plastic bottles are made to withstand repeated use and sterilization. The teats replicate the natural feeding action of a mother's teat. There are no holes in the teats so you can customize the flow of the formula.

The 60ml Kit includes one 60ml bottle, 5 rubber teats and cleaning brush.
The 120ml Kit includes one 120ml bottle, 3 rubber teats and cleaning brush.

Elongated teats are long, thin, latex nipples that also fit on a syringe.
Bottle graduations in millilitres and tablespoons.

The five teats of varying size and shape were developed for use in puppies, kittens, hamsters, ferrets, guinea pigs, raccoons, squirrels, beavers, mink, monkeys and other pets. The teat will need to have a hole made in it by using a hot needle (allow the needle to cool before removing so latex does not melt together again) or by cutting an "X" with a razor blade or scissors. The size of the opening will regulate the formula flow. Once your animal has teeth, it is advisable that you monitor the teat's condition for your animal's safety. The bottle brush may be on used to keep the inside of the bottle and teat clean.

Cat. No	Description	Size
350411	Feeding bottle incl. teat for nursing kit	60 ml
350416	Feeding bottle incl. teat for nursing kit	120 ml
350410	Nursing kit milk feeder bottle	60 ml
350415	Nursing kit milk feeder bottle	120 ml

BUSTER Body Suits for Dogs and Cats

The soft and comfortable BUSTER Body Suit is used as protection and comfort after surgery or in case of skin disease.

It is an ideal solution for patients recovering from surgery or minor injuries or have tender areas caused by excessive licking, biting or chewing.

The EasyGo version has a larger slit for the dog to be able to urinate.

BUSTER Body Suit is Perfect for

- Post operative care
- Wound care
- Spay/neuter recovery
- Hot spots and other skin ailments
- In cases of skin diseases
- Incontinence, urogenital or perianal issues
- In season

BUSTER Body Suit Advantages

- Comfortable, soft and flexible
- Freedom of movement
- Easy fitting and removal
- Double fabric under the belly enabling pads to be inserted in case of fluid loss, incontinence or when the animal is in season
- Press studs for more security
- Made from cotton/elastane

Kruuse Extreme Dog Muzzles

The KRUUSE muzzle is a comfortable dog muzzle designed to protect against bites.

The safety strapping ensures that the dog muzzle will always remain in place and it features features two additional points of secure attachment. The loop at the bottom is designed to attach to your dog's regular collar.

The muzzle has a secure metal buckle with pre-holed webbing to ensure easy adjustment and a good fit. The KRUUSE dog muzzle is made from injection moulded thermo plastic rubber, which is extremely tough and durable.

The neoprene padding inside of the webbing straps ensures that it is snug and comfortable for the dog to wear. The dog can pant, drink and be given treats to reward a more placid attitude to life.

- Easy to fit
- Tough & durable yet flexible & soft
- Variable collar adjustment
- Safe & strong with strategic addition of struts at front nose area to eliminate all possibilities of biting
- Dog friendly meaning the dog can still nibble food and enough room is allowed for panting

- Mains and battery powered

Cat. No Description

280806 KRUUSE Walk-on Scale

KRUUSE Rehab Dog Blanket Softshell

This blanket is great for dogs with stiff joints or with muscle problems. The softshell material retains the dog's body heat and increases the blood circulation.

The blanket is breathable so it is great for skin and fur. The effect of the blanket is like a thermos, which keeps the body temperature constant.

For the working dog, it is the optimal blanket. The blanket is equipped with reflectors and the front of the blanket is adjustable. The outer surface of the blanket is very easy to keep clean.

Cat. No	Description

KRUUSE Rehab Hock Protector

The hock protector can be used before and after surgery or in connection with chronic arthritic conditions such as osteoarthritis, OCD, ligament injuries, arthritis and other problems.

A well-adapted joint protector that repels water is important, as the joint protector comes near the ground and therefore easily gets wet.

A wet joint protector cools down the joint and impairs the healing process.

The KRUUSE Rehab Hock Protector is made of neoprene and is waterproof. The inside of the joint protector will remain dry even under extremely poor weather conditions. The hock protector is placed with the point of the hock out through the opening in the protector and then stretched around the leg proximally and distally to the joint.

Cat. No	Description
279839	XS, Cocker Spaniel, Whippet
279840	S, Collie, Springer Spaniel

279842	L, Rottweiler, German Shepherd
279884	XL, Bernese Mountain Dog
279914	Starter kit, sizes XS - XL, 5/pk

KRUUSE Rehab Knee Protector

The knee protector helps dogs with stifle lameness and joint pain and creates an improved quality of life through surface support. This protector has both an elastic and a stabilising effect.

For example when cruciate ligaments are injured, the dog can be fitted with a protector at the time of diagnosis. Thus the dog will not lose as much muscle, if any, before the operation, which would have been the case without a knee protector.

The knee protector must be pulled up along the thigh to sit well and remain in place. You can protect the penis of a male dog by running the strap through an old sock.

Cat. No	Description

KRUUSE Rehab Carpal Protector

The carpal protector can be used before and after surgery or in connection with chronic arthritic conditions such as osteoarthritis, OCD, ligament injuries, arthritis and other problems.

When dogs suffer from injuries in the distal joints such as the carpal joints, it is often secondary to trauma. In connection with these complex joints being injured, ligaments are often affected in some way. The healing period is long and the dog needs a support around the joint in order not to worsen the injury during the healing period.

The carpal protector is stretched around the entire leg and fastened with a Velcro band in accordance with the stability one wants to achieve with the protection.

Cat. No	Description
279844	XS, Cocker Spaniel, Whippet
279845	S, Collie, Springer Spaniel
279846	M, Labrador, Dalmatian
279847	L, Rottweiler, German Shepherd
279882	XL, Bernese Mountain Dog
279915	Starter kit, sizes XS-XL, 5/pk

KRUUSE Rehab Weight Cuffs

Weight training is used to exercise the dog's muscles and can be used for rehabilitation as well as wellness training programmes.

When exercising the dog's hind legs, the weight cuffs are placed above the hock with the side pockets turning away from the body. When exercising the front legs, the weight cuffs should be placed above the carpus.

To improve balance and control the dog should wear weight cuffs in pairs.

Exercising with weight cuffs results in stronger muscles and better movements. The training should be adjusted from using very light weights to heavier weights after a couple of weeks. A suitable start weight is 1 g per kilo of the dog's bodyweight. After some time you can increase the weight to 2 g per kilo of the dog's bodyweight.

Cat. No	Description

Walkabout Lifting Harness

Walkabout harnesses are commonly used for animals with arthritis, hip dysplasia, spinal trauma and general fatigue. A very useful advantage of these harnesses is to help prevent lower back injuries to the pet owner from lifting pets improperly. The front and back harnesses will keep your pet happy and mobile despite the injuries or age-related problems.

The Walkabout Harness is designed to fit both male and female pets.

The design and construction of the Walkabout harness provide the balance and support necessary for your pet to lead a happier, healthier and cleaner life. The lifting harness for the front legs is designed with a smooth, semi-circular neckline that allows your pet to breathe comfortably, while simultaneously offering support.

Designed after the pet's contour for maximum effect

BUSTER DeShedder Comb

Avoid loose hair. The BUSTER DeShedder fast and easily removes loose hair much better than a normal brush or comb. Shedding is a normal process but with the BUSTER DeShedder comb you remove a big part of the coat of your pet before it sticks to your clothes, the floor, the couch or to something else in your house. Can be used for all kind of coats. Universal comb that easily removes the undercoat and loose hair.

- Reduces shedding
- Formed after the pet's contour for maximum effect
- Keeps the coat healthy and fine

Oster Animalcare wooden handled grooming tools

These wooden grooming tools from Oster provide are a high quality range of products for use at home offering a premium look at a remarkable price.

The Oster Brush & Detangle Brush

Made with Earth friendly wood rather than plastic and with double the surface area, this brush makes fast work of grooming your dog. The large head design is an effective way to save time while not sacrificing results.

The Oster Brush & Demat Paddle Slicker Brush

Slicker brushes are for loosening mats and lifting the dead undercoat and this one is made with Earth friendly wood rather than plastic. With double the surface area, this brush makes fast work of grooming your dog. The large head design is an effective way to save time while not sacrificing results.

The Oster Finish & Shine Combo Brush

Slicker brushes are for loosening mats and lifting the dead undercoat and this one is made with Earth friendly wood rather than plastic. The dual head design is allows for both brushing/ detangling & smoothing and spreading the essential oils.

The Oster Comb & Protect Grooming and Flea Comb Set

Combs should be used after brushing and catch dirt and mats that brushes can't catch and these ones are made with Earth friendly wood rather than plastic. Groomers like to say, a brush can lie to you, a comb cannot. The teeth of the comb are rigid and therefore do not widen from each other allowing dirt, debris, or parasites to be left on the coat.

The Oster Trim & Shape Grooming Shears

Sheers are for cutting out mats that can't be detangled and for trimming around face, paws, and other sensitive areas. The Oster Grooming sheers feature a rounded tip in case of sudden movement by the animal when trimming the hair which particularly important given the areas that are most likely needing to be trimmed ie around joints and sensitive areas.

OSTER RUSH BRUSH

The Oster Rush Brush is a great 2-in-1 grooming tool that works as an effective de-shedding and shampoo brush. Its soft rubber curry-style nubs instantly attract dirt and loose hair for quick de-shedding. Also works great as a bathing brush that massages shampoo deep into the coat to remove dirt and provide a soothing action your dog will love.

- Fast and easy grooming
- Soft, durable, all-rubber design
- Cleans effectively with less hand-scrubbing
- Provides a soothing massage for your dog
- Smaller size is ideal for use on small to medium dogs

Oster Paw Cleaner

The Oster™ Paw Cleaner has everything you need to leave even the dirtiest of paws gleaming. The smart compact design creates a versatile 5-in-1 tool, that's easy to use at home or out and about. Not only can you clean paws to perfection with the specially designed paw channel, you can wipe their belly, wash fur, control shedding and lint with the all-purpose electrostatic brush and the super absorbent microfiber mitt. This product is also great for bath time. You might wonder how you ever took care of your special friend without it.

Oster Clipper A6 Comfort, 230 V, without blade

Combines an ergonomic design, a heavy duty motor, lightweight and 3 speeds. The heavy duty motor runs at over 4,000spm and with its high efficiency provides a cooler running experience.

- Vibration Insulators are centred around the motor, helping to absorb vibration and noise ideal for all day grooming.
- With its 3 speed 3,100spm, 3,600spm and 4,100spm, this clipper is very versatile.
- The A6 Comfort also features a patent pending drive system that provides an ultra-smooth and efficient cutting experience for the user.
- The Zinc Alloy technology combines a lightweight ergonomic feel with a heavy duty long lasting durability.
- The clipper faceplate is designed to help keep the hair out while still being able to access the drive lever for quick and easy maintenance.
- The Oster A6 Comfort is compatible with all Golden A5 clipper blades.

Avior Transport Cage

The key advantage of this transport cage is that the top section can be completely removed, whilst it is also possible to open it from either the front or the back. Two lift-up doors, one either side allow you to easily get your pet into the carrier, or take them out. Practical anchor mechanisms for standard three-point seat belts make it easy to strap the crate into your car, and mean that your pet can be transported quite securely on the passenger seat or back seat.

Ventilation grilles in the top and bottom sections of the carrier allow for air movement and keep your cat or dog from getting too hot when they are being transported inside the box. The lockable care hatch in the top of the box is an innovative addition to this pet carrier. You can use the care hatch to give your pet a treat or a reassuring stroke during a long wait at the vet's or on a journey. The compartment opposite the care hatch can be used to store pet essentials such as treats or leads. Secure click-lock fastenings and a sturdy integrated carry-handle ensure that the pet crate is easy to transport.

Plastic pet carriers are easy to keep clean and hygienic, making them a perfect alternative to fabric carriers. Its ergonomic design makes the Avior excellently suited to carrying cats, small dogs, and even rabbits or guinea pigs.

Pratiko Transport Cage

The Pratiko Pet Carrier will be perfect for transporting cats, small dogs and small animals safely. Made from tough, durable non-toxic plastic and with a secure and strong door locking system, this lightweight carrier is ideal for keeping pets safe and comfortable. With the hinged door you can get your furry friend in and out with ease; they can even walk in by themselves! This pet carrier features a large top handle that is easy to hold, making this cage easy to carry whether you're taking your pet on holiday or to the vets. This bright and bold carrier has large ventilation gaps so your furry friend will be comfortable as they travel.

Cat. No	Description
281215	Pratiko transport cage

Savic Dog Cottage

The Cottage Dog Crates are the same high quality that you would expect from all Savic dog cages.

They feature a fold-down assembly is easy and fast. Dual catches on all dog cottages (except small and medium sizes) have front (left) making them particularly useful in cars (not available in medium sizes).

Medium Savic dog cottages have front and top doors, ideal for getting in and out. Tough plastic pan that's warm and easy to clean. Also no warping, sharp edges or rattling (metal pans are a thing of the past). Access flap to easily remove base pan for cleaning.

Cat Malt

When cats wash their coat by licking, hairballs can be formed in the stomach. This can cause disturbances to the digestion resulting in vomiting, obstruction or diarrhea. Also, cats that exercise insufficiently are prone to obstructions, and cat malt will be a great help in these cases. Cat Malt stimulates appetite and is therefore suitable for cats that have been sick or for some other reason have reduced appetite.

Direction for use: 2-3 cm of cat malt is given orally directly into the mouth 2-3 times daily in between meals. Keep out of reach of children.

Esbilac Puppy Milk

Specially formulated to provide all the nutrients, fats, proteins and carbohydrates that the mother's milk does, this highly palatable milk is more than an adequate alternative to the real thing.

By supplying the necessary levels of vitamins and minerals, the Esbilac Puppy milk Powder helps to ensure proper growth and development, to ensure your puppy has the best start in life!

Also fantastic for post-surgery and convalescent adults that require a high nutritional intake but are unable to feed properly.

All puppies should receive their mothers milk for at least 2 days, if possible.

This colostrum milk gives extra nutrition and temporary immunity against some diseases.

Grizzly Wild Salmon Oil

Grizzly Salmon Oil is derived only from wild Alaskan Salmon that have spent their entire lives foraging on a natural, nutrient-rich diet.

The resulting oil contains a balanced blend of valuable fatty acids, inherent antioxidants and traces of vitamins that naturally occur in the salmon, which will not interfere with your dog's intake of vitamins from other sources.

Teething Gel for puppies

All dogs love to chew on things particularly puppies but it is more prevalent during the teething phase. For teething puppies, when their teeth are erupting, their gums are extremely sore and raw. To alleviate the pain and irritation, they tend to chew, bite and gnaw on everything they can get at. By soothing sore, irritated gums, VetIQ's Teething Gel helps reduce the amount of chewing a puppy may need to do to ease the pain during teething.

Stool Repel-UM

Coprophagia is a behavioural condition whereby puppies and dogs consume their stool. It is a common habit in some dogs which can be distressing for the pet owner and unhygienic for the pet. VetIQ Stool Repel tablets have been specially formulated to help deter this behaviour by making the dogs own stool unpalatable to eat.

Taurine tablets

Pet Ag Taurine Tablets are delicious chewable tablets that ensure that your cat has a healthy level of taurine for retinal, reproductive and cardiovascular health. These chews are made for kittens and cats that may need more taurine in their diet to stay healthy. Taurine has important functions in a wide variety of bodily functions. Because cats have a limited ability to produce taurine metabolically, it's important that they consume a majority of the taurine they will need.

Taurine Tablets are a great way to make sure your cat gets the nutrition they need to prevent serious disorders. A taurine deficiency can cause dilated cardiomyopathy, feline central retinal degeneration and reproductive dysfunction. It's also important for pregnant cats who need extra taurine to help develop her kittens.

350227	Green-UM Spray 250 ml single

Defurr-Um paste Cat

When cats and kittens lick their fur, that fur may be ingested, which then accumulates in their stomach and forms what is known as a hairball. VetIQ Defurr-UM helps to assist passage of swallowed fur through the gut to avoid the formation of hairballs. VetIQ Defurr-UM is a combination of natural ingredients which gently lubricate the system giving a mild laxative effect that removes the hairball and reduces future blockages.

KRUUSE Steri-Protect

Sterile veterinary dressing. Excellent absorbency. Free from added chemicals. Size of dressing: 20 x 40 cm

How to use:

Hot Dressing:

Boiled water is placed in a shallow container and cooled to 37°C. Cut the dressing to the size and shape required and place in the water.

When saturated, remove from the water and squeeze out excess liquid. Place over the affected area with the shiny side away from the skin. Secure with a bandage.

Cold Dressing:

Soak the dressing in boiled water as described above, and let the dressing cool completely. Apply to a affected area. The dressing can also be chilled in the refrigerator and kept in the bag.

Dry Dressing:

Apply to the affected area and secure with a bandage. Avoid applying the bandage too tightly. Always apply with shiny side away from the skin.

KRUUSE Wound Flushing

The KRUUSE wound lavage system facilitates optimal wound care at an affordable price: effective wound irrigation is ensured by the use of 3 l. of body temperature isotonic fluid delivered at the correct pressure. KRUUSE is the first company to develop a dedicated veterinary Wound Flushing Unit with a documented and stabilised pressure of 0.82 bar (12 psi).

The flushing unit delivers 3 l. of fluid in less than 5 minutes.

Cat. No	Description	Pack Size
165050	KRUUSE Wound Flushing Unit	
165051	KRUUSE Wound Flushing Solution	10 sachets

KRUUSE EquiPadding

High quality, gauze covered medical absorbent cotton wool for protection and wound management. Medical bleached absorbent cotton wool with fiber length 2-2.5 cm covered with gauze threads 18 x 26 per inch²

Gentle support · Lower limb protection Support for tendons and joints

Good heat insulation · Keeps tendons and muscles warm · Wound padding

Gives superior protection to wounds whether they are dry, discharging or infected

Standard wound care and management principles should always be applied Can be sterilized

Easy to use · Can be cut into the exact size and shape required

Secure with a support bandage or an elastic dressing

Avoid overlapping as this could result in pressure points. Where pressure points such as the knee are at risk a "comfort" hole should be made.

Cat. No	Description
220243	EQUIVET Hoof Nail Puller 30 cm, Stainless Steel

EQUIVET Slipper

EQUIVET Slipper

The "Slipper" is a revolutionary advancement for the equine industry. It was developed to aid in treating, medicating and protecting the equine hoof.

- Provides a clean and protected environment for medicating (abscess, packing)
- Protection (Pulled shoe)
- Breeding
- Laminitis
- Reduced concussion

A Better Alternative

Replacing foot wraps every time medication is re-applied can get expensive. This unique product allows the hoof to breathe while being treated, which helps to promote a healthy hoof. The "Slipper" can actually replace a foot wrap all together! The body of the "Slipper" is made of a heavy ply cordura and is fastened to the high-grade leather base with a resilient nylon thread.

The durable, yet pliable material allows a comfortable fit and makes them safe and easy to apply.

Application

EQUIVET "Slipper" is as easy to put on and take off as it looks! The Velcro opening is wide enough to slip in the hoof in and tighten the Velcro tabs to create a snug, perfect fit which eliminates any discomfort your horse may experience with regular foot wraps. EQUIVET "Slipper" provides protection, keeps the hoof clean, holds medication in place, replaces bulky foot wraps, is safe and easy to apply, is not for use during exercise.

Sizing

The EQUIVET "Slipper" is tailored for maximum adjustability and fit. The four sizes, along with adjustable Velcro, allows for a custom fit for all normal hoof variations.

Cat. No	Description	Size
220150	EQUIVET Slipper	Small
